

How to Level

SINKING OUTDOOR CONCRETE

Major tripping hazard!

Does your driveway, sidewalk or patio have problem areas where sunken concrete has caused unattractive safety hazards?

Fortunately, leveling concrete is both simple & affordable. Let's compare two options for taking care of your problem.

POLYURETHANE LIFTING WITH POLYLEVEL® VS MUDJACKING

PolyLEVEL®

PolyLEVEL® cures in 15 minutes

Weighs 2 pounds per cubic foot

Requires injection holes the diameter of a penny

Mudjacking

Mudjacking cures in a day

Weighs 100 pounds per cubic foot

Requires injection holes the diameter of a soda can

YOU DON'T HAVE TO LIVE WITH UNEVEN CONCRETE!

Know your options, and enjoy your home!
